

Nurse Aide I Nursing Homes

An individual that works as a Nurse Aide I in a nursing home must be listed on the Nurse Aide I Registry. This includes Registered Nurses, Licensed Practical Nurses and Nurse Aide IIs.

Nursing homes must verify that nurse aides are listed in active and good standing status on the Nurse Aide I Registry before allowing them to work.

Nursing homes may not employ anyone who has a substantiated finding on the Nurse Aide I Registry (or on any other state's Nurse Aide Registry) of resident abuse, neglect, or misappropriation of resident property.
